

Ahmeduddin Mohammed

Harrison, NJ | +1 (862) 405-7606 | mohammed.ahmeduddin16@gmail.com | LinkedIn | GitHub

Professional Summary

Software Engineer with hands-on experience building full-stack applications using React, TypeScript, Node.js, Python, FastAPI, PostgreSQL, & Docker. Strong in REST APIs, authentication, testing, responsive UI, & performance optimization.

Technical Skills

Languages: Python, TypeScript, JavaScript, SQL, Java, C/C++

Frontend: React, TypeScript, Vite, HTML5, CSS3, Material-UI, Recharts, Responsive Design

Backend & APIs: Node.js, Express.js, FastAPI, Flask, Django, REST APIs, JWT, Validation

Databases: PostgreSQL, MySQL, SQLite, Redis, Schema Design, Query Optimization

Testing & DevOps: Pytest, Unit Testing, Integration Testing, Docker, Nginx, GitHub Actions, CI/CD

AI & Data: OpenAI API, RAG, Pandas, NumPy, Scikit-learn

Tools: Git, GitHub, VS Code, PyCharm, Postman, Linux, Agile Development

Professional Experience

Graduate Student Associate

Sept 2024 – May 2025

Strategic Events and Conference Services, New Jersey Institute of Technology

Newark, NJ

- Managed scheduling data for **150+ monthly reservations**, sustaining **99% booking accuracy**.
- Resolved **50+ operational issues monthly** with **5 departments** during high-volume periods.
- Supported **200+ students, staff, and visitors weekly** with a **4.8/5.0** service rating.

Python Programming Instructor

Aug 2023 – Dec 2023

Full Stack Academy

Hyderabad, India

- Taught **60+ students** across **80+ hours** in Python, OOP, debugging, and problem solving.
- Designed **25+ coding labs** and reviewed **100+ submissions**, improving code quality by **45%**.

Data Science Intern

Jun 2022 – Jul 2022

Delta Sigma Technologies

Hyderabad, India

- Built preprocessing pipelines for **100K+ records** using Python, Pandas, and NumPy.
- Ran **50+ tuning experiments**, improving model accuracy from **76% to 89%**.

Projects

AI Financial Report Analyst

Python, FastAPI, React, RAG, OpenAI API, PostgreSQL, Docker

- Built AI analysis platform over **150+ report pages**, reducing lookup time by **48%**.
- Developed retrieval and prompt workflows for metric extraction across **5 analysis tasks**.
- Deployed Dockerized services for **12+ users** with **under 2.5 seconds** average latency.

Developer Portfolio Tracker

React, TypeScript, Node.js, PostgreSQL, Vite, Recharts, GitHub Actions, Vercel

- Built portfolio platform for **60+ users** with dashboards, profiles, and **10+ tracked metrics**.
- Created **18+ reusable React components** across **4 breakpoints**, achieving **92+ Lighthouse score**.
- Automated CI/CD with GitHub Actions and Vercel, cutting release time from **15 to 4 minutes**.

User Management and Authentication System

Python, FastAPI, PostgreSQL, Docker, Pytest, Nginx

- Built auth system with **12 REST endpoints**, **3 roles**, JWT, and refresh-token rotation.
- Wrote **70+ tests** with **88% coverage**, improving reliability and reducing regressions.
- Dockerized FastAPI, PostgreSQL, and Nginx stack, cutting setup time from **45 to 10 minutes**.

Education

New Jersey Institute of Technology

Jan 2024 – May 2025

Master of Science in Computer Science

Newark, NJ

Osmania University

Aug 2019 – Jul 2023

Bachelor of Engineering in Information Technology

Hyderabad, India
